Thomas Foods International update January 11

Thomas Foods International continues to focus on ensuring the best possible outcomes for our staff following the fire at Murray Bridge.

As part of our redeployment strategy, we will be increasing production at our Tamworth and Lobethal plants as well as increasing our workforce at both sites.

We remain committed to Murray Bridge and re-building our local processing operations.

Our Wallangarra plant remains closed and is not being considered as part of the company's current redeployment plans.

The long-term and sustainable approach to the recovery and rebuild following the Murray Bridge fire requires an enormous collaborative effort involving many other organisations and authorities that provide much valued support.

Substantial progress is being made and we expect to be in a position to make further positive announcements soon.

Darren Thomas
